

2025 NWMVCA FALL CONFERENCE

Good afternoon,

I am reaching out to you because you were recommended for a presentation at the fall meeting of the Northwest Mosquito and Vector Control Association. The meeting will be held at the Springhill Suites Island Park Yellowstone, in Island Park, Idaho, on October 22nd and 23rd, 2025.

The group usually consists of 80-100 managers of local abatement districts, members of their staff, public health officials, and industry sales representatives. The meeting will begin with an afternoon session on the 22nd, followed by a reception with hors d'oeuvres and drinks. On day two, there will be an all-day program with lunch included, followed by our annual awards banquet, concluding the meeting.

I am looking for some speakers to provide presentations. If you are interested, I have attached the speaker form. Please fill it out and return it to shaun@morrowbioscience.com.

For additional meeting information, please see <https://www.nwmvca.org/>.
